Academic Year: 2026-27

Mind Map – From Concrete Mix Design to Laboratory Concrete Production

Course Code/Name: 2093116/BMCT

Year/Sem: SE/ III

Date: 21/09/2026

Course Outcome: 2093116.4 Apply concrete mix design principles to produce concrete in the laboratory.

Task	BL
Prepare an individual mind map showing how concrete mix design principles are applied to produce concrete in the laboratory. Use the assigned mix-design problem and incorporate your calculated material quantities into the mind map. The mind map must demonstrate the sequence from design requirements and material selection through batching, mixing, fresh concrete testing, specimen preparation, curing and strength evaluation. Refer to IS 10262 and IS 456 wherever applicable.	Apply

Evaluation

Performance Indicator	Max. Marks	Marks Obtained
Technical Content	2	
Application of Mix Design	2	
Logical Connections	2	
Presentation & Neatness	2	
Timely Submission	2	
Total	10	

Performance Indicator	Exceed Expectations (EE) (2 marks)	Meet Expectations (ME) (1 marks)	Below Expectations (BE) (0 marks)
Technical Content	Covers all major stages accurately and completely	Covers most major stages with minor omissions	Important stages are missing
Application of Mix Design	Correctly integrates calculated mix quantities into the production process	Applies mix-design concepts with minor errors	Limited or incorrect application
Logical Connections	Clearly shows the relationship from design to production and testing	Connections are generally clear	Connections are unclear or fragmented
Presentation & Neatness	Very clear, systematic and visually effective	Clear and adequately organized	Difficult to read or poorly organized
Timely Submission	Submitted on time	—	Submitted late
